Content

¡Exprésate! Level 2, the second of a three level Spanish program based on the “five C’s” of the national standards. The format leads students from structured practice to open-ended communication. Image-based Vocabulario presentations at the beginning of each chapter section introduce a thematic context that becomes the organizing principle for the entire chapter. Each vocabulary presentation is reinforced by the ExpresaVisión video. Gramática presentations, which use color coding and graphics for clarification and emphasis, integrate the targeted vocabulary with new grammar concepts. The practice following each grammar point helps students achieve accuracy in their communication. Each new grammar point is accompanied by animated grammar explanations in the video (Gramavisión).

Culture is integrated into the program via Geocultura, which precedes every chapter and introduces students to a new country or state, and is reinforced throughout the chapter with culture notes and realia-based activities. Culture is also supported by VideoCultura, through interviews of native speakers on chapter theme related topics, and GeoVisión, which takes students on a tour of each location.

Student Experiences

¡Exprésate! encourages students to actively learn Spanish and to understand culture. The Video Program/DVD Tutor, Interactive Tutor, and Online Editions bring the language and culture to life for students through diverse, interactive technology. In the Student Edition, each chapter is set somewhere in the Spanish-speaking world where students see a slice of life from that location and then internalize the experience. The Nota cultural feature in every chapter gives students insight into the culture and often asks them to compare the culture in the chapter with their own. The Cultura section introduces students to people from different countries who talk about topics related to the chapter. Comunidad highlights Spanish language in the community and describes how students may use language beyond the classroom.

Assessment

¡Exprésate! offers assessment options that address different needs. All test activities are related to the chapter theme and direction lines provide a context for each test activity. The Assessment Program consists of a set of nine quizzes per chapter, chapter tests that are skills-based and assess the material presented and practiced in the entire chapter, speaking tests for each chapter, midterm and final exams, and alternative assessment: portfolio suggestions, performance assessment, and picture sequences to assess the students’ ability to describe and to narrate. The One-Stop Planner CD-ROM with Test Generator provides hundreds of test items for easy quiz or test customization. Throughout the Student Edition, students have multiple opportunities for test preparation, including a focused review, Repaso, and a cumulative review, Integración, after every chapter.

Organization

Chapters are preceded by the Geocultura section, which introduces a new country or state and the culture of that location. Chapters follow a simple pattern of sections including vocabulary, grammar, culture, reading and writing, and finally, review. The Vocabulario

section introduces new theme-based vocabulary while Gramática, uses color-coding for emphasis. Each grammar and vocabulary section leads students from a modeled presentation to practice and finally communication with videos to reinforce each lesson. Each chapter also contains authentic readings and a process writing section. Teachers are supported with both core instruction and differentiated instruction suggestions for every presentation. The review, or Repaso, section includes a picture sequence for AP practice from the beginning of the learning process. The Integración section is a cumulative review after every chapter that contains fine art that fits the chapter theme. The majority of the last chapter of each level is review, while the first chapter of levels 2 and 3 are review. The consistent format of this program allows students to gain confidence, which is necessary in le

Research Data and Evidence of Effectiveness

Disclaimer: The research data and evidence of effectiveness was provided by the publisher

Note: Please complete this section by indicating the research data and evidence of

Research Available

Yes

If yes, provide information below.

Fundamental to HOLT, RINEHART AND WINSTON publishing philosophy is the involvement of students and teachers in the development and maintenance of its educational programs. In developing this program, Research and Curriculum, editorial and consultant staff conducted observations, interviews, and reviews with teachers representing a diverse ethnic and socioeconomic background in various and diverse states. Performance effectiveness was monitored through surveys to product users, as well as by collecting appraisal statements from students and teachers, reports from field consultants and sales staff, and attitudinal surveys. A complete Learner Verification Report is available upon request

Disclaimer: Comments on the strengths and/or weaknesses of each book, material or program were written by members of the State Textbook/Instructional Materials Review Team and reflect their opinions. They do not reflect the opinions of the State Textbook Commission nor the Kentucky Department of Education. In addition, the State Textbook/ Instructional Materials Review Team completed each evaluation form during the week of July19-23, 2004. In order to maintain the integrity of the of the review team's comments, editing was limited to spelling and punctuation.
